

Signature L

Restorative comfort in simplicity

Designed to be both stylish and space-efficient, Signature L delivers premium sauna performance in a compact form. It maintains exceptional quality and functionality, while its smaller footprint allows for easier placement and installation.

For those working with limited space or a tighter budget, Signature L offers an accessible way to enjoy the wellness benefits of sauna bathing, while enhancing your outdoor area with understated luxury.

Key features

Exterior

The exterior cladding is designed to withstand severe climate conditions: we use Nordic thermo pine. The walls, floor and roof are efficiently insulated, and the solid roof construction can bear heavy loads of snow.

Interior

All interior walls thermo wood and benches made from high-quality alder.

Lighting

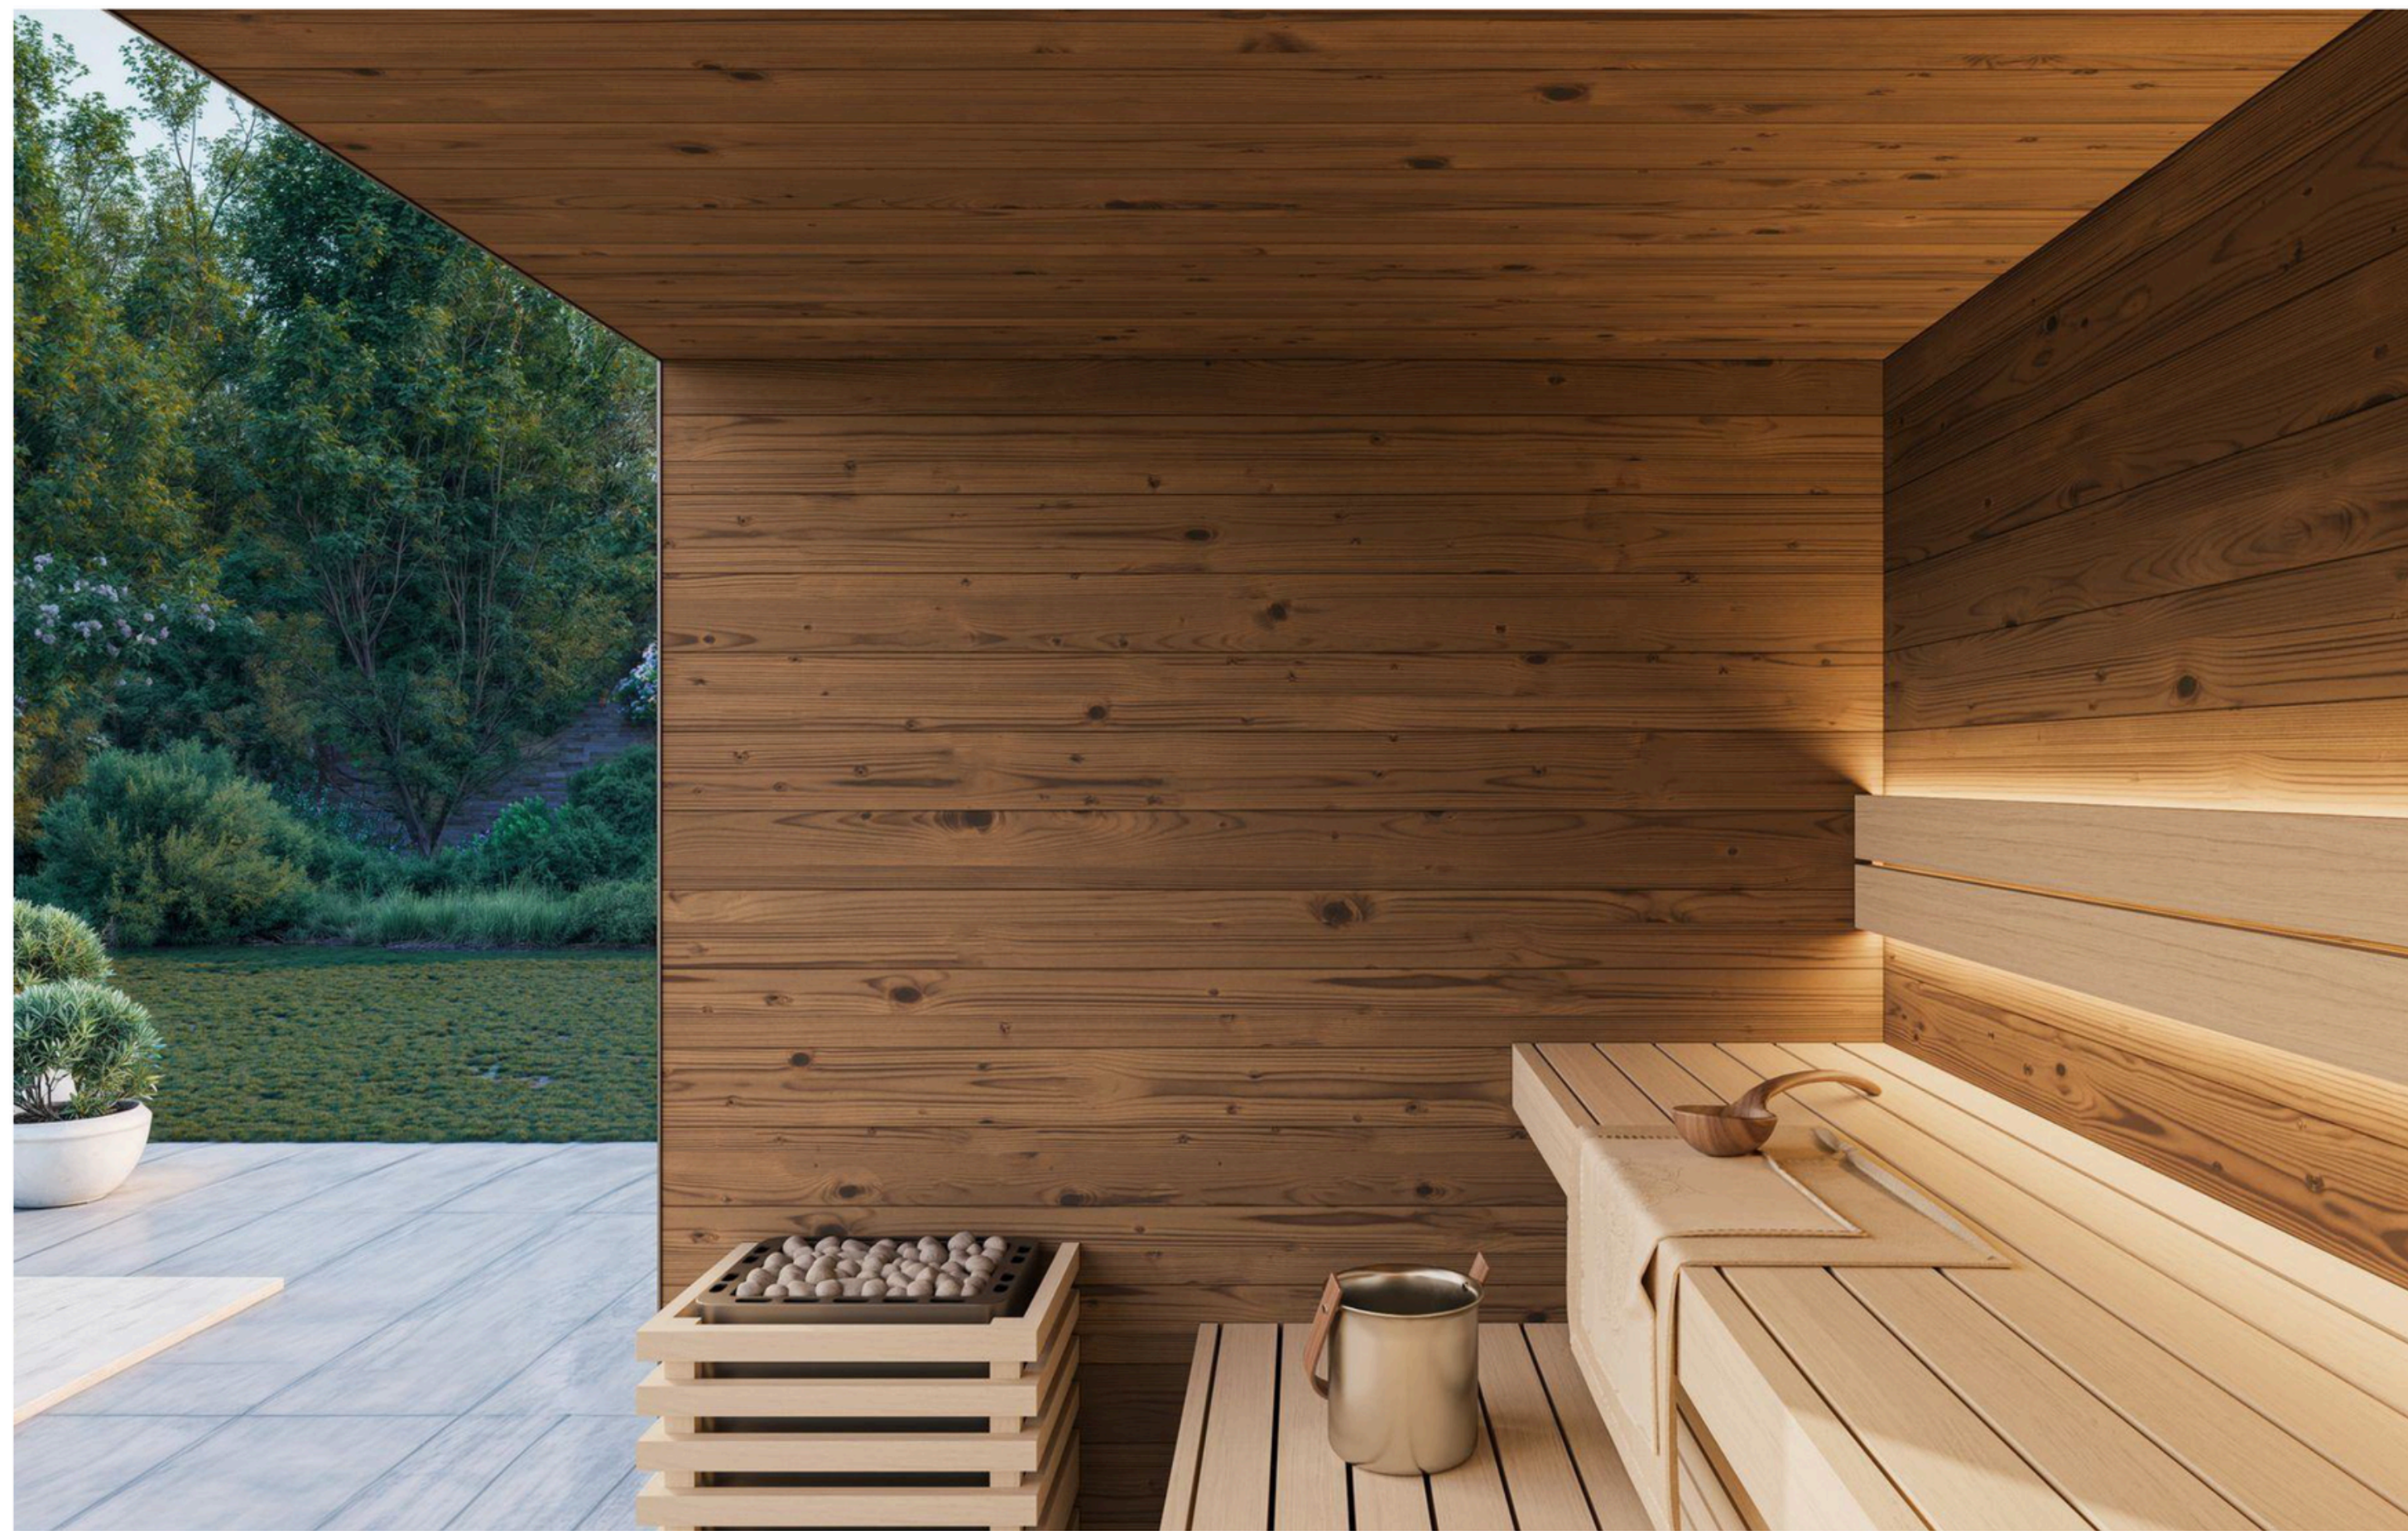

Inside we have warm white LED strips behind the backrests. Lights are dimmable using the remote control unit.

Floor

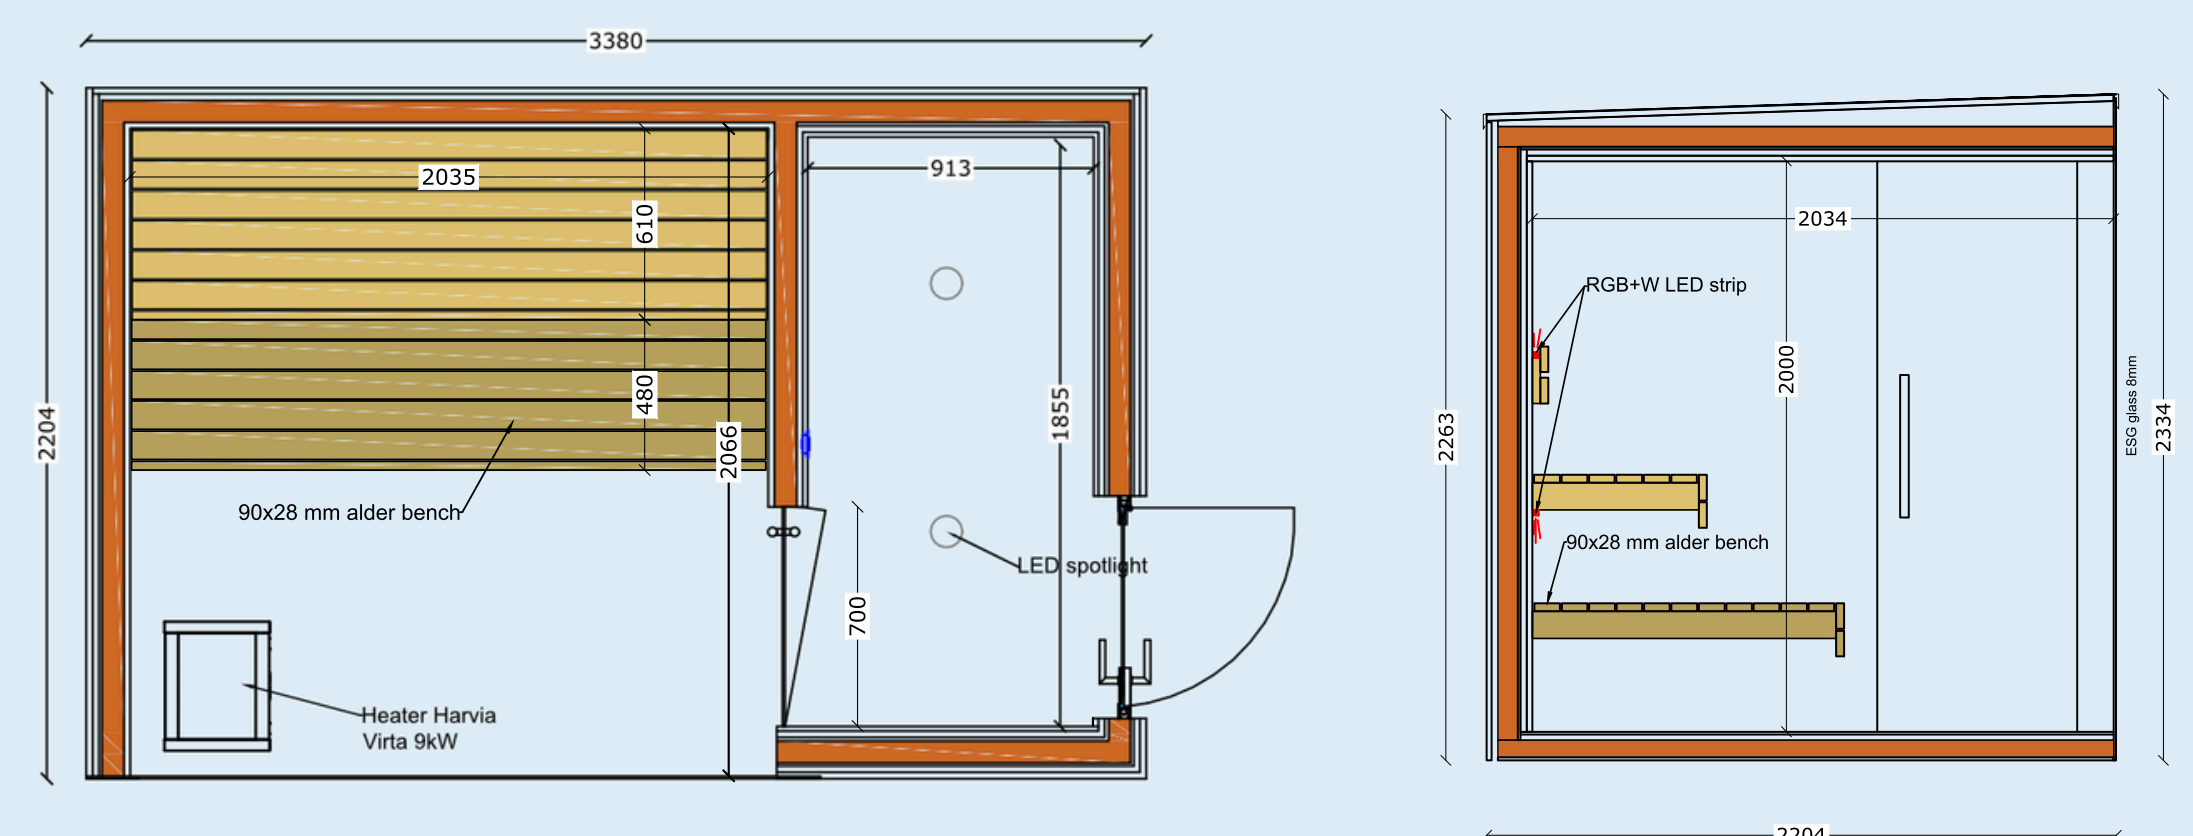

The floor is tiled with high-quality non-slippery tiles (black).

Suitable equipment

Electric heater
9 kW with control panel.
